Indoor, Blank-out Backlit LED Signs Size & Customization Options BLB Series

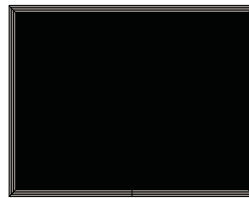

Standard BLB Cabinet Sizes

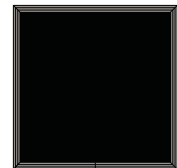

7"H x 7"W x 3"D

7"H x 18"W x 3"D

14"H x 18"W x 3"D

12"H x 12"W x 3"D

Customization Options

Signal-Tech can customize BLB Series LED Backlit signs to display any message or logo, and the size of the sign can be customized as well. By applying vinyl to the message panel and covering it with a durable Plexiglas face, you can customize with virtually any message or image, and the BLB Series has the option to be double face.

Message Options

Say what you want, BLB Series LED Backlit signs can display any message. The message can be in any color or combination of colors.

Character Styles

Choose the character style by the character size, font and upper/lower case letters. The character size can range from 2-inch letters to 20 inches or more, depending on the size of the sign and the length of the message.

Logo or Graphic

Include a logo or graphic to bring more attention to a sign or message. A graphic can help bring more awareness to your message. Graphic include anything from warning symbols (e.g. DO NOT ENTER or Handicap Symbols), to shapes like Arrows, Circles, Pedestrians or the Shape of a Hand.

Multi-lingual Messages

Just like we're not limited to words, we are not limited by language. You can also design signs to include other languages and create multi-lingual messages in Spanish, French, German, Arabic, Chinese, etc.

Customize the Cabinet

All cabinets can be painted to match any color upon request. You can also customize a cabinet by including hoods or special mounting.

Voltage

We understand projects require different voltages for different application. All signs come in standard 120VAC options, but you can choose from high and low volt options. For low voltage applications 12V and 24V are available and 240VAC or 277VAC for a high voltage applications.
