LED Counter Insert

Our LED count signs can be an integral component in your pylon or overhead directional sign. They are engineered to accept data input from revenue control and parking management systems and display the messages received in numeric values or the messages OPEN, FULL and CLSd (Closed). Symbols and arrows are also available.

We interface with multiple 3rd party parking equipment systems as well as our own RedStorm™ Parking Guidance System. For a list of compatible integrators visit:

signal-tech.com/space-available/ system-compatibility

Our unique connection with these parking systems allow us to bring the available space counts to light.

LED Counter Insert
7"h x 18"w (Id#9974)

Available in 120-277 VAC, 12-24 VDC.
UL/cUL Listed for wet locations.

(Showing FULL, numeric and OPEN messages)

Use Sign Clips to Simplify Installation

When installing an LED Counter Insert within your sign consider using a pair of our Sign Clips. They are designed to fit over the outside edge of the insert frame, ensuring a snug fit without drilling into the cabinet.

LED Counter Insert
(Id#9974)

LED Counter Insert
(Id#50911)
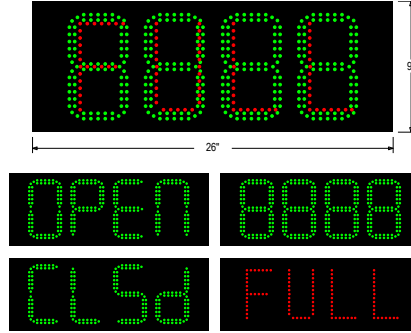

Outdoor/indoor blank-out LED count sign engineered to display available space counts from a wide-variety of parking equipment systems. Capable of displaying up to four numeric values as well as OPEN, FULL, and CLSd (Closed). Guaranteed readable in direct sunlight. Blanks out when off. Constructed from a mitered, extruded aluminum cabinet with integrated power supply and a conformal-coated circuit board

Id# 9974 Spec
- Visual Opening: 6⅛"h x 17⅛"w
- Character Height: 4½"; Single Stroke
- Sign Size: 7"h x 18"w

Messages Displayed
- Numbers: 0-9 displayed in Green LEDs
- Messages: OPEN or CLSd displayed in Green LEDs; FULL displayed in Red LEDs

Electrical
- Input voltage: 120-277VAC
  - *Optional 12-24VDC*
- UL/cUL Listed for wet locations

Communication
- RS486, RS232 or Ethernet

Id# 50911 Spec
- Visual Opening: 8⅛"h x 25⅛"w
- Character Height: 7½"; Double Stroke
- Sign Size: 9"h x 26"w

Cabinet Construction
- One-piece, 2½" deep extruded aluminum frame. The extrusion bends to the sign size with ends secured together by an interlocking extrusion and screws, holding the display board and impact resistant, smoke tinted, polycarbonate face captive

Parking System Compatibility
- Signs are compatible with the Signal-Tech RedStorm™ System and 3rd party Parking Systems. For a complete list of compatible 3rd party systems, visit: signal-tech.com/space-available/system-compatibility

Warranty
- 2 Year

Engineered & Assembled
- USA

Sign Mounting Clips

**Extruded Aluminum
Sign Clips**

The extruded aluminum clips are designed to fit over the outside edges of the insert frame, providing a secure connection without drilling into the cabinet. The flanged edge of the clip is used to attach the LED insert to your sign cabinet. The vertical indentation on the flange can be used to align drilling holes for stud mounting and the raw finish supports the use of an adhesive. Sign Clips are precisely cut to fit the height of the LED sign insert, ensuring a snug fit for each installation.

Id# 35841 Spec
- Sign Clip for: 7"h Signs
- Sign Clip Height: 6½"h

Clip Construction
- One-piece, 1½"w x 2¾" deep (nominal dimension size), extruded ⅛" aluminum with a raw finish.

Id# 50911 Spec
- Sign Clip for: 9"h Signs
- Sign Clip Height: 8½"h

Warranty
- 1 Year

Engineered & Assembled
- USA
