Web Interface User Instructions

The Web Interface is a secure environment for authorized users only. The network administrator will provide you the web path, user name and default password to access the Web Interface.

Overview

To login to the Web Interface, enter the web path in your browser address bar. Enter your User Name and use the default password "password". You will be prompted to immediately change your password.

Functions of the web interface for Authorized Web Interface Users

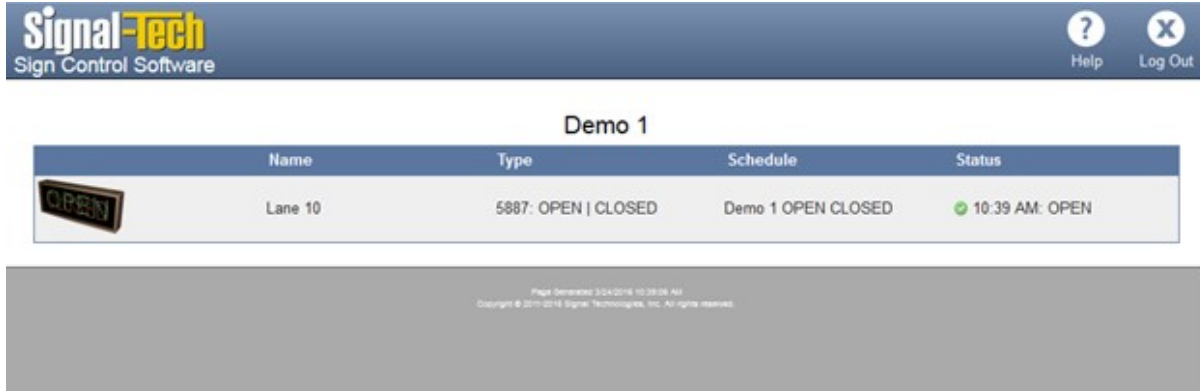

- View sign status
- View schedule being displayed by the sign
- Manually override current message schedule (immediate)
- Add a scheduled override to the current message schedule (future date)
- Return to preset message schedule

Instructions

1. Enter your **Username** and **Password** then press **Log In**

A screenshot of the Signal-Tech Sign Control Software login page. At the top is a blue header bar with the Signal-Tech logo and the text "Sign Control Software". Below the header is a white box titled "Please Log In". Inside this box are two input fields: "username" and "password". Below these fields is a blue button labeled "Log In". At the bottom of the page is a grey footer bar containing small text: "Page Generated: 2/24/2018 10:58:02 AM" and "Copyright © 2017-2018 Signal Technologies, Inc. All rights reserved."

The first time you login you will be prompted to change your password. Once you **Log In** and change your password, the overview screen will display. This screen is organized by **Sign Group**, which is typically the location of the sign(s). On this screen you can see the Sign Name, Sign Type, current Schedule, and current Status of the sign.

Name	Type	Schedule	Status
Lane 10	5887: OPEN CLOSED	Demo 1 OPEN CLOSED	10:39 AM: OPEN

2. Setting a Manual Override (immediate)

a. Static Message Smart Sign

- i. Using drop-down boxes, select the sign message(s) you want to display immediately. Select the time the override will expire. This can be set for 23.75 hours from the current time. Click **Override** button to complete. Override message will display, on the sign, immediately. The sign will resume its regular schedule when the override message expires.

- ii. You can change or remove the **Manual Override** at any time using the specific button shown below.

b. S-VMS Rebel Smart Sign

- i. Enter the text as you would like it to display. Keep in mind the size of the display area. If the message is too long to display at one time, it will automatically be set to scroll by the software.

The screenshot shows the Signal-Tech Sign Control Software interface. At the top, there is a header with the Signal-Tech logo and navigation buttons: Back, Help, and Log Out. The main title is "Diamond Parking Garage: South Street S-VMS Rebel 16x96". Below the title is a graphic of the sign. The sign type is "VMS Rebel 16x96" and the schedule is "East Street Exit S-VMS 16x96". The current time is "04:19 PM: Public". The sign has two text input fields: "line 1 text" and "line 2 text". Below these fields is a note: "Text will automatically scroll if necessary. Leave the 3 space for a single line". There is an "Expire At:" section with dropdown menus for hours (5), minutes (30), and period (PM). Below this is the text "(current sign time: 04:19 PM)". At the bottom is a blue "Override" button.

- ii. Set the expiration time. This time can be set for up to 23.75 hours from the current time. and then click the **Override** button to complete. The manual override message will display immediately. The sign will resume its regular schedule when the override expires.

2. Setting a Scheduled Override (future date)

a. Static Message Smart Sign

- i. Select the static message to be displayed as well as the start date, start time, end date and end time.

The screenshot shows the "Add Scheduled Override" dialog box. The title is "South Street ATM ITM OPEN CLOSED: Add Scheduled Override". The dialog has several fields: "Override Name:" (text input), "Start Date:" (date input, 10/4/2016), "Start Time:" (time input, 12:00 AM), "End Date:" (date input, 10/5/2016), and "End Time:" (time input, 12:00 AM). Below these is a section for "Face A" with three dropdown menus: "ATM" (blank), "OPEN | CLOSED" (blank), and "ITM" (blank). Below these are two more dropdown menus: "ITM" (blank) and "OPEN | CLOSED" (blank). At the bottom are "Save" and "Cancel" buttons.

b. S-VMS Rebel Smart Sign

- i. Select **Add New Override** to set a future override on the current schedule.

Scheduled Overrides			
Scheduled Override	Start	End	Message
Football Games	7/21/2016 3:00:00 PM	7/21/2016 11:00:00 PM	Football
Add New Override			

IMPORTANT: The Message must have been entered by the administrator in the software to be selected in the Web Interface. New Messages cannot be added in the Web Interface.

- ii. Enter the Description of the Override, start date, start time, end date and end time.
- iii. Select the **Message** that needs displayed during the override time.

Regular Schedule: Edit Scheduled Override

Override Name:	Halloween
Start Date:	10/31/2016
Start Time:	12:00 AM
End Date:	11/1/2016
End Time:	12:00 AM
Message:	Happy Halloween
