Double Sided
ID#: 39390 (120-277VAC)
ID#: 42969 (12-24VDC)

I need a sign to keep people safe!

We've got that...

Whether you're in shipping and receiving, on the production floor, or in a testing lab, safety is of the utmost importance.

Use brightly illuminated LED signs to safely direct truckers to the available loading bays, control access to secure areas and alert workers and visitors to risky situations.

Did you know...?

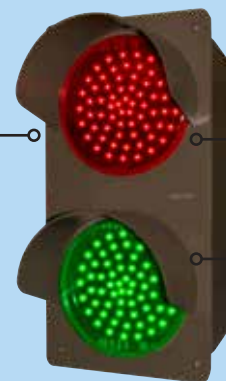

All of our products can be manufactured to accept a 12-24 VDC input.

Call for a quote today!

Available in vertical
or horizontal
configurations

Replaceable LED
circuit board
with hood

**LED Traffic Controller
Red|Green**
14" h x 7" w x 6" d
ID#: 50937 (120-277VAC)
ID#: 51592 (12-24VDC)

Dense LED layout for
superior visibility

Injection molded
weather resistant
housing and hoods

TCIL Series: Replaceable LED Light Source

When you need a LED Signal with a replaceable light source the TCIL Series Traffic Controller is the right choice.

Each Traffic Controller includes a replaceable LED circuit board and hood assembly.

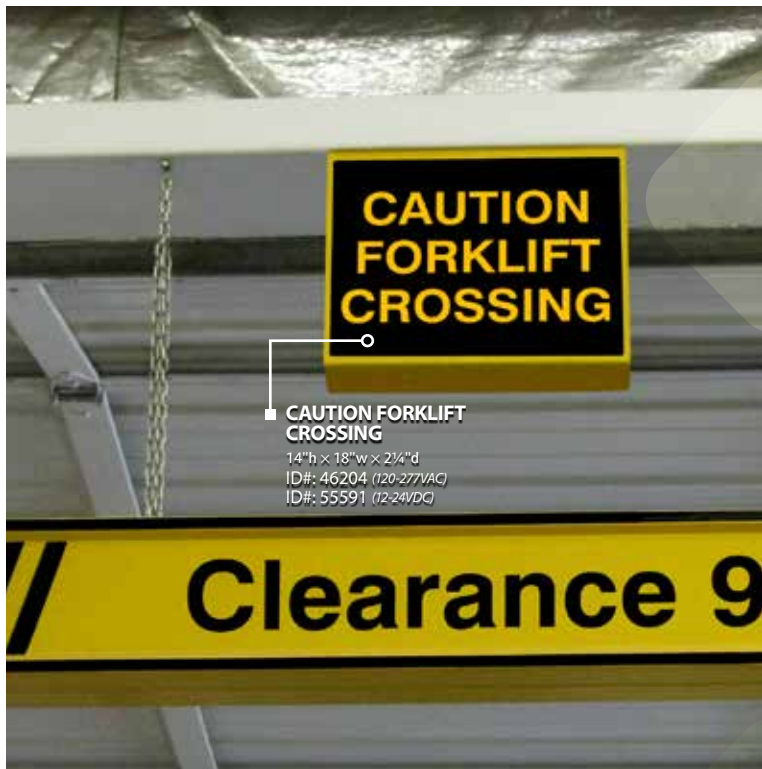

The body of the signal is an injection molded housing with hoods and includes two colored lenses that match the LED color to intensify the illumination.

Available in either a vertical or horizontal orientation and are perfect for wall, post or overhead mounting.

Signals available in any combination of red, green, blue, amber or white.

Replacement LED circuit board
and hood assemblies

**CAUTION FORKLIFT
CROSSING**
14" h x 18" w x 2 1/4" d
ID#: 46204 (120-277VAC)
ID#: 55591 (12-24VDC)

We do **MORE** than you think...

Let us manufacture a sign that meets **your** unique requirements.

Personalize **your** design with customized selections:

- Message wording, color and font style
- Illumination style – direct-view or backlit
- Custom paint color and finish – including PMS color matching
- Full color graphics and symbols, including PMS color matching for logo branding

Optional Accessories:

- Beacon strobe
- Piezo alarm
- Flasher
